

ACTIVITIES

Working with images

1. Storytelling - Activity using images and apps, e.g. Photofunia.

Pre-teaching activities:

Task: write a three line poem using the following words only once.

E.g. Hot June day, an otter slips into the sea.

Tools:

<http://www.wordle.net>

<https://worditout.com>

http://www.abcya.com/word_clouds.htm

Task: take six photos of someone/something, put them in the chronological order and create a story (orally and in writing).

2. Storytelling (creative narratives)

Activity for a language class (upper intermediate students)

A class of e.g. 16 students divided into four groups (A, B, C, D).

A task for each group is: prepare a story choosing 6 images in the internet (some key-words provided: ghost stories, vampires, fantasy, reality, newspapers).

2. Each group gives their story to another group (A to B, C to D and vice versa). Each group has to prepare their own story in writing consisting of three or four paragraphs.

3. Choose a representative of the group to present the story to the whole class.

4. Self evaluation: they suppose to assess each story taking into consideration the originality of the story as well as mistakes made during telling it.

Teacher's evaluation: the way of presenting (how advanced the language is: vocabulary, structures).
